

SensXtend

by LeakSmart®

TAKING LEAK DETECTION TO THE NEXT LEVEL.

LeakSmart, the world's most intelligent leak and flood protection system, introduces SensXtend, an innovative array of accessories, adding customization and flexibility to any smart home LeakSmart system.

Automatic 5-second water shut-off

SensXtend's unique design provides instant leak detection along the rope's entire surface. Within 5 seconds of a detected leak, an alert goes to the hub and the valve controller shuts off the main water supply. At the same time, you're alerted of the shut-off—before a leak becomes a flood.

Pushing leak detection farther

LeakSmart detects water leaks and monitors temperatures at high-risk areas. Now, with SensXtend Dock and Rope Sensor, detect leaks in tight, hard-to-reach places, like under appliances. That means optimum protection and peace of mind.

Triple threat to leaks everywhere

LeakSmart's SensXtend Dock with patented Tri-port design links three rope extensions to one sensor, tripling coverage in your kitchen, basement, bathroom—anywhere you need leak detection. Three ropes in three directions covers more surface area, for the most flexible, versatile system.

SensXtend consists of three components for extended leak detection.

ROPE SENSOR

SENSOR DOCK

EXTENSION CABLE

Leak detection designed around you. Versatile. Customizable. Advanced.

- Add to any smart home LeakSmart shut-off system for customizable leak protection
- LeakSmart Hub and valve are required for use
- True 24/7™ protection: LeakSmart's proprietary wireless network and battery back-up work even when power and Wi-Fi are out
- Patented Tri-port design triples coverage area
- Instant leak detection along length of Rope Sensor surface and 5-second automatic valve shut-off
- Provides leak detection in tight, hard-to-reach spaces
- Allows for creative placement options, plus easier battery changes
- Eliminates need to move appliances during installation
- Rope Sensor dries instantly: wipe with a cloth and use again immediately for maximum coverage
- Extension Cable extends rope's reach and enables coverage where you need it most
- A variety of mounting accessories available, including adhesive strips, magnets, wall anchors and floor clips
- 5-year manufacturer's warranty**

Specifications

Rope Sensor Extension Kit: 8850605

INCLUDES:

LeakSmart Sensor
Sensor Dock
4' Rope Sensor
4' Extension Cable*
Rope Clips
Adhesive Pad
Magnet
Screws
Wall Anchors
3 AAA Batteries

*Extension cable does not sense water.

Rope Sensor Accessory: 8850610

INCLUDES:

Rope Sensor
Extension Cable
Rope Clips

**5-year manufacturer's warranty when installed by a professional. All other purchases and installations include a 2-year warranty.
